

Latent Print-Firearms/Toolmarks Position, USFWS Wildlife Lab, Ashland, OR

This is a pre-announcement. In early 2013, the U.S. Fish and Wildlife Service, National Fish and Wildlife Forensics Laboratory will be announcing a full time, permanent, Latent Print position. The recruitment will be at the GS-11 and GS-12 levels with salaries ranging from \$57,408 to \$89,450, plus benefits. Relocation expenses will not be covered.

Qualified applicants must have a current certification in the International Association for Identification and at least one year of independent experience in latent print analysis. The position also requires experience in firearms and toolmarks to assist in technical reviews.

The Laboratory is the only full service wildlife forensic laboratory in the world, providing forensic science support to law enforcement agents investigating crimes against wildlife.

The Laboratory is located in Ashland, Oregon, in the beautiful foothills of the Siskiyou Mountains of Southern Oregon. This privileged location offers all the advantages associated with sophisticated urban settings (theaters, film festivals, concerts, restaurants with international cuisine, etc.), and all the amenities associated with resort communities (skiing, rafting, fishing, bike trails, hunting, etc.). Ashland is the home of Southern Oregon University, with which the laboratory maintains close collaborative ties, as well as the world-renowned Ashland Shakespearean Festival.

In summary, the position at the National Fish and Wildlife Forensics Laboratory allows the professional to work at a unique, cutting-edge facility, pursue a meaningful, conservation-oriented career, and live in a community that offers an exceptional quality of life.

For more information call Dr. Ed Espinoza, Deputy Director, at 541-488-6513.
