<p><b>Additional Comments:</b></p>	<p>The New York State Police Forensic Science Laboratory System, under the direction of the Director of State Police Forensic Laboratory System, provides all criminal justice agencies in New York State with state-of-the-art forensic analytical and investigative capabilities and expert testimony on matters related to the investigation, resolution and prosecution of crimes. Services provided by the system, as categorized by ASCLD/LAB-International®, include the following disciplines; Biology (Serology and DNA), Controlled Substances, Firearms/Toolmarks, Latent Prints, Toxicology and Trace Evidence. The New York State Police Laboratory System is accredited by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board-International (ASCLD/LAB-International®). The ASCLD/LAB-International® inspects crime laboratories internationally, and its accreditation</p>

holds for a five-year period.

The system is comprised of four labs; the State Police Headquarters Laboratory at the Forensic Investigation Center (FIC), in Albany, and the system's three regional laboratories located in Newburgh, Port Crane and Olean. The State Police Headquarters Laboratory also houses the New York State Convicted Offender database and the Local DNA Index System (LDIS) for the New York State Police and serves as the control point for the New York State DNA Index System (SDIS) and as the liaison with the National DNA Index System (NDIS).

**REQUIRED KNOWLEDGE, SKILLS AND ABILITIES:**

Extensive knowledge of the theory, principles and practices of forensic science; in collecting, examining, and analyzing evidence; quality assurance and quality control; laboratory accreditation; and in the prosecution of criminal cases.

Extensive knowledge of state and municipal laws, regulations, and procedures as applied to forensic science work and criminal investigations.

Knowledge of governmental finance and management accounting.

Experience in testifying in court as an expert witness.

The ability to provide leadership and to maintain harmonious, professional relationships with State Police personnel and other law enforcement agencies at the federal, state, and local levels as well as district attorneys and the courts.

The ability to plan, organize, direct and control the work of employees.

The ability to express ideas clearly and concisely, orally and in writing.

The ability to advance original research in the development of new and improved methods of forensic science.

Membership in professional forensic science organizations such as the American Society of Crime Laboratory Directors, the American Academy of Forensic Sciences on the local or national level.

Working knowledge of applicable laws and regulations dealing with the effective operation of a forensic laboratory in New York State including, but not limited to, OSHA, PESH, EEO and Article 49-B of New York State Executive Law.

This position does not require that the candidate have taken and passed a NYS Civil Service examination, or currently hold a qualifying position within the NYS Civil Service System. This position will be filled through a resume review and interview process.
