FALL TRAINING SEMINAR • **October 12th - 13th**

thursday,
OCTOBER 12TH

8:30am - 5:00 pm
Training Facility
Fredericksburg, VA

The presentation topics on Thursday will include research, testimony, guidance, case studies, recent court challenges, the application of three-dimensional imaging technology, and other topics relating to the field of firearms and toolmark identification.

friday,
OCTOBER 13TH

8:00 am -12:00 pm
Outdoor Range
FBI Laboratory

There will be live-fire demonstration, familiarization and instruction on various foreign, non-standard, and exotic crew-served military weapons systems. Everyone will be able to participate in the live-fire familiarization, however only a handful will be able to fire the crew-served weapon systems. Ammunition will be supplied. Attendees should plan to bring their own eye and ear PPE (personal protective equipment).

Please forward any questions to **afte@ic.fbi.gov**
Registration for this event ends **September 29, 2017**

HOSTED BY FBI LABORATORY, FIREARMS/TOOLMARKS UNIT
